PROFESSIONAL SUMMARY

Motivated Information Technology graduate (NQF Level 6) with a 73% academic average and hands-on experience developing software applications, websites, and database-driven systems. Skilled in Java, JavaScript, SQL, Flutter, HTML, and CSS, with practical experience in software development, testing, debugging, and problem-solving. Passionate about technology, continuous learning, and creating effective digital solutions while applying strong analytical, teamwork, and communication skills.

EDUCATION

Vaal University of Technology

Diploma in Information Technology (completed – 73% Average) – Graduated: 2026

- Developed software applications and web solutions using Java, HTML, CSS, JavaScript, SQL, and Flutter through practical coursework and academic projects.
- Designed and implemented relational databases by creating database schemas, writing SQL queries, applying normalization techniques, and managing data effectively.
- Applied the software development lifecycle (SDLC) to analyze requirements, design solutions, develop applications, perform testing, debug issues, and produce technical documentation.
- Collaborated on individual and team projects to solve real-world problems while strengthening analytical thinking, communication, teamwork, and problem-solving skills.

CERTIFICATIONS

- **FNB (App Academy) – Full-Stack Development**
 - Developed skills in building responsive web applications using front-end and back-end technologies, database integration, and modern software development practices.
- **Cisco (Networking Academy) – IT Essentials: PC Hardware & Software**
 - Acquired practical skills in computer hardware installation, operating system configuration, troubleshooting, preventive maintenance, and technical support.
- **Cisco (Networking Academy) – Python Essentials 1**
 - Developed foundational Python programming skills, including programming logic, variables, data types, functions, loops, and basic data structures. Gained experience in problem-solving and automation concepts.

TECHNICAL SKILLS

Programming Languages

- Java
- Python
- HTML5
- CSS3
- JavaScript
- Flutter (Dart)
- SQL
- VB.Net

Development & Deployment Tools

- Visual Studio Code
- Arduino
- Netbeans
- GitHub
- Vercel
- Netlify
- Render

Software Development

- Object-Oriented Programming
- Debugging
- Responsive Web Development
- Software Testing
- Version Control (GitHub)

PROJECT EXPERIENCE

BudgetFlow System Website | HTML • CSS • JavaScript • SQL • SpringBoot

- Designed and developed a web-based expense management system.
- Implemented user authentication and secure data management.
- Created and managed relational database structures.
- Tested system functionality and resolved software issues.
- Improved system reliability through debugging and optimisation.

Personal Portfolio Website | HTML • CSS • JavaScript • Firebase • Firestore

- Designed and developed a fully responsive personal portfolio website.
- Implemented dynamic project and certificate management using Firebase.
- Built reusable JavaScript modules to improve maintainability.

- Integrated Firestore for dynamic content management.
- Optimised the website for different screen sizes and user experience.

KEY COMPETENCES

- Problem Solving
- Attention to Detail
- Critical Thinking
- Software Development
- Time management
- Ability to work independently and within a team
- Excellent verbal Communication & Teamwork

ACHIEVEMENTS

- Completed industry-recognized Cisco certifications, including CCNAv7 Introduction to Networks, CCNAv7 Switching, Routing & Wireless Essentials, IT Essentials, and Python Essentials 1.
- Developed the BudgetFlow expense management system with authentication, data handling, and database integration features.
- Demonstrated the ability to manage multiple academic assignments while maintaining accuracy and meeting deadlines.
